

BELTRON

RETAIL, BAR & CATERING

Established in 1990 Beltron has been supplying & servicing the needs of the retail, bar & catering industry with a range of quality products.

Originally, Beltron specialised in point of sale systems, but diversified down through the years to offer deli-counter / food prep. equipment, & bar & light catering equipment. Our most recent addition to our portfolio is the launch of the Aroma Coffee Company division to distribute a range of coffees, brewing equipment & ancillary products.

Why choose Beltron as your equipment supplier? -:

Selecting equipment - Since 1990, Beltron have provided advice & recommendations on the best equipment solutions designed to meet customer needs. All factors are taken into account in these recommendations such as location, staffing & expertise, volume, speed of trading & lastly profiling of customer type. In doing this we ensure clients receive the most suitable equipment for their outlet.

Delivery of Equipment - A site survey will be carried out & a specification provided to prepare the site in advance. This ensures that the delivery of equipment will be done in a prompt, well organised & professional manner.

Training & Support – Comprehensive training & simplified operation manuals (Daily Routines) are provided with equipment. These ensure easy to use reference notes for staff & management to help resolve simple problems that may arise & to assist in maximising the performance of the equipment supplied.

Service & Maintenance - In the event of equipment requiring service we undertake to provide a response within 8 working hours. A stand-by machine will be provided where possible should it be necessary to remove your machine to our workshop. Post first year warranty maintenance will be provided by way of an annually renewed "Maintenance Plan" providing parts & labour cover. Under this plan, back-ups of your most recent programming updates provided by us, are kept on file and thus are ready to re-install should a machine crash and loose programming information.

" We Service What We Sell "

Purchase Options \ Terms - Discounts for special agreed terms. Machine purchase funding contributed to in-directly by special introductory offers. Finance loans, equipment leasing & hire purchase facilities available. (We are approved credit mediators with a number of finance houses, allowing us to get quotations & rates for customers from a variety of sources from which you may choose.)
